

Rushikesh Sobale

Ships real-time, production-ready software — from encrypted messaging platforms to IoT control dashboards.

Mumbai, India | rushikeshsobale@gmail.com | +91 91523 27223 | github.com/rushikeshsobale | linkedin.com/in/rushikesh-sobale | portfolio-green-nine-21.vercel.app

SUMMARY

Full stack developer based in Mumbai with hands-on experience building production web applications across the entire stack — from responsive React interfaces down to the AWS infrastructure that serves them. Focused on real-time systems (Socket.IO, WebSockets) and security-by-default authentication (JWT, OAuth). Open to full-time engineering roles.

EXPERIENCE

Frontend Development Intern

JUL 2024 – FEB 2025

Interactive Icespice

- Developed and maintained responsive React.js user interfaces for production use.
- Collaborated closely with developers and designers to scope and implement new features.
- Optimized frontend performance and usability across key user flows.
- Managed source code and collaborative workflows using Git and GitHub.
- Participated in bug fixing, QA, and deployment activities.

PROJECTS

HiBuddy

DEPLOYED

Social networking & real-time encrypted chat platform

- JWT authentication and Google OAuth login.
- Real-time 1:1 messaging via Socket.IO with delivery and read-status tracking.
- End-to-end encrypted messaging architecture.
- Backend deployed on AWS EC2, with S3 for media storage.

Smart Irrigation Controller

DEPLOYED

IoT automation for remote pump monitoring & control — web dashboard + mobile app

- Responsive web dashboard (React + Vite) for remote pump monitoring.
- Companion mobile app (Expo / React Native) with matching controls.
- Scheduling, loop cycles, and emergency-stop functionality.
- Real-time hardware-to-frontend communication with ZMPT101B voltage sensors.

EVM UI Simulator

CLIENT PROJECT

Electronic Voting Machine interface simulation, built for an MLA election campaign

- Pixel-accurate recreation of a real EVM panel, with interactive candidate selection and button-press feedback.
- Built solo as a paid freelance commission.
- Used directly in campaign advertising and voter-outreach materials.

SKILLS

Languages – JavaScript (ES6+), TypeScript

Data & Real-Time – MongoDB, MySQL, Supabase, Socket.IO, WebSockets
Frontend – React.js, Next.js, React Native (Expo), HTML5, CSS3, Tailwind CSS, Bootstrap
Cloud & DevOps – AWS EC2, AWS S3, IAM, PM2, Linux (Ubuntu), Vercel
Backend – Node.js, Express.js, NestJS, REST APIs, JWT Auth, Google OAuth
Tools – Git, GitHub, Postman, VS Code

EDUCATION

Bachelor of Science (B.Sc.) in Physics 2025
Pune University | CGPA 7.8
